Floral Design

I do in house florals. Provide me with a list of your favorite flowers, a color scheme, your favorite Pinterest images, a budget, and I'll do the rest. As a former farmer, I have a number of local floral farmers I work with, as well as growing some of my own flowers at my home/studio. This helps to keep costs down. My approach to flowers is that you can have what you want, while staying within budget, by getting creative (i.e. mixing real and faux), staying within season, and focusing more on colors, textures and types, as opposed to focusing on specific flowers.
